OFFER SERVICE FREE OF CHARGE

Licensed by the State of Michigan The United Doctors is an organization for the treatment of certain diseases. They are all specialists. The United Doctors treat, without Surgical Operations or hypodermic injections, diseases of the blood, skin, and all internal organs, rheumatism, sciatica, tape-worm, leg ulcers, weak lungs and all long standing, deep seated diseases.

Thirty-five years' experience and the complete records of thousands of cases successfully treated prove that the methods of the United Doctors are right. They were among the first to be called "Bloodless Surgeons."

Each member of the United Doctors staff has at his command the knowledge and resources of the whole organization.

Many people go on suffering from diseases that can be alleviated just because they cannot afford to go to high priced specialists at a distance from home.

No community has a sufficient number of sufferers from the diseases mentioned to support special hospitals for their treatment and cure.

The United Doctors have solved the problem. Their highly trained specialists travel from place to place. They diagnose and prescribe a course of treatment for the sufferers in each community and teach them how to take care of themselves at home.

## FORD MOTOR COMPANY OF CANADA

Henry Ford is president and with his associates owns 51 per cent of the stock of this Company.

During the last 12 years this Company has paid 1,300 per cent in cash dividends and 5,500 per cent in stock on the original capital.

An investment of \$1,000 in this stock 12 years ago would show a profit of \$181,000 to the investor today.

The Ford Motor Company of Detroit earned over \$53,000,000 last year. The Canadian Company manufactures the same car, is controlled by the same man and has less competition.

The stock of the Detroit Company cannot be purchased today at any price. Therefore, why not become a partner of Henry Ford in the Canadian Company which we truly believe offers today great possibilities for enormous profits?
